Customer Notes:

Print Information:

All images are printed using either an Epson Inkjet or a Fuji Crystal Archive LightJet process. Both produce exceptional color and I have taken great care to insure that prints are true to the original image. Independent tests have demonstrated a print life up to 75 years. Dry mount materials are all acid free/museum quality.

Print sizes are approximates. Some images may differ slightly from the print sizes shown herein. Framed prints can be made available; however, frames and framing styles vary greatly. Please contact us to discuss framing options.
